District will notify all Proposers in writing, if District rejects all Proposals. District also reserves the right to terminate this RFP process at any time.

The District reserves the right to limit the scope of work, including scaling back the scope, removing sites and associated services/equipment, service substitutions and will not incur termination liability, as a result.

If the E-Rate funding request is denied by USAC/SLD, the Contract, with respect to such services, shall terminate immediately unless the District provides written notice to the Proposer instructing it to continue with the work. To accommodate growing and unknown bandwidth requirements, the District would like options during the term of the agreement to upgrade service to any of these sites and need the pricing structure for consideration in the future. Amendments to the initial agreement will be required for all changes/additions.

Proposal has the ability to increase bandwidth on-demand to accommodate a 1-3 month common core standard testing period. The increased bandwidth and cost will ONLY be applicable to these specified months.

B. **Acceptance or Rejection of Proposals**

Proposals shall remain open, valid and subject to acceptance after the Proposals opening and up to the end of the agreement period. District reserves the right to reject any or all Proposals.
C. **Best Value Evaluation Process**

Pursuant to Public Contract Code section 20118.2, the District will review all proposals based on the factors described herein and the District’s needs to select the proposal(s) which, at the District’s sole discretion, offer the District the most advantageous options (the “Evaluation Process”). Cost is an important factor in the evaluation process, but District is not obligated to accept the lowest cost proposal. At District’s discretion, the District may consider the following criteria in the Evaluation Process:

1) **Cost of E-Rate eligible Services [Max. of 35pts.]**

2) **Demonstration of creative and cost-effective design that meets the needs of the District, the Project, and the requirements of all applicable state and federal regulations. Demonstrated evidence that the Proposer has the financial capability to execute the work required for the successful completion of the Project. Detailed design and implementation plan [Max. of 30pts.]**

3) **Evidence that the Proposer’s team has the experience and ability to provide the necessary services to complete the Project. Successful experience with school construction projects and specifically projects utilizing E-Rate funding. [Max. of 10pts.]**

4) **Points will be assigned to projects that favor our project goals the best with limited exceptions. [Max. of 10pts.]**

5) **Customer Service and Support teams are very important to the success of the project and work relationship with the service provider. Proposer should have local resources and employees that allow for quick response to district needs during and after the implementation. [Max. of 15pts.]**

III. **SCOPE OF WORK**

Proposer shall provide the following services. Proposers must confirm the ability to provide the following services with the following specifications and requirements and provide a description of how it will meet these requirements. The final proposal price must include any and all applicable charges to the District. After the initial term of the contract is fulfilled or fiber construction expenses have been fulfilled, the Proposer will revisit the Monthly Recurring Charge (MRC) to validate the District is paying the lowest corresponding price (LCP) for a service. Lowest corresponding price (LCP) is defined as the lowest price that a service provider charges to nonresidential customers who are similarly situated to a particular E-rate applicant (school, library, or consortium) for similar services. See 47 CFR Part 54, Section 54.500(f). Further defined, a similarly situated E-rate applicant is one that is located in the service provider's geographic service area, i.e., the area in which the service
provider is seeking to serve customers with any of its E-rate services. See First Report and Order, 12 FCC Rcd 8776, 9032, para. 486. Similar services include those provided under contract as well as those provided under tariff. First Report and Order, 12 FCC Rcd 8776, 9032, para. 485. See also Fourth Order on Reconsideration, Report and Order 13 FCC Rcd 5318, 5398, para. 133). If there is a finding that the price should be lower, an amendment to the original contract will be created to achieve the aforementioned LCP. The final price must include any and all applicable charges to the District. Multiple awards are possible.

The District requests that Proposer provides a mechanism to implement network additions or deletions. The District reserves the right to procure any item or services by other means to meet time-sensitive requirements of the Project. Proposer agrees that time is of the essence and agrees to meet all timelines as set out in this agreement or addendum(s) to this agreement. The rates and charges, terms and conditions of this Agreement are subject to the review and/or approval by the regulatory authorities of the state of California.
The District considers both the quality and availability to be critical factors influencing the selection of Proposer(s) to provide the service described in this proposal. The District relies heavily upon technology in the daily instructional and operational support of its education community. Modern curriculum is designed and implemented around the use and availability of technology in the classroom and schools. Network outage can result in the irreplaceable loss of critical planned instruction time. The District requires the selected Proposer to provide and maintain the referenced services on a 24 hour a day, seven day a week basis, including weekends and holidays.

VI. SERVICE REQUIREMENTS
The District requests that Service Provider incorporate network facilities backup and routing redundancy where possible. For example, for any fiber that Service Provider may install to any campus MDF, Service Provider should demonstrate that spare fiber strands are available for immediate use in the event of damage to the primary strands in use.

Entrance Facilities- The selected Service Provider will be responsible for providing connectivity from the curb to the appropriate demarcation location within each campus. Some or all of the campus locations currently have a demarcation which is either connected via buried conduit or overhead cabling. Existing conduit may be used provided: (a) it is the District’s property; and (b) it has sufficient capacity to carry additional cabling without placing undue stress on existing cabling. The District makes no representations that any existing entrance facilities are available. The Service Provider will be responsible for determining at each location the availability or the cost of adding new facilities. Service Provider may schedule site surveys with the District facilities by contacting the IT Manager. In the event that new conduit must be placed, the Service Provider will be responsible for the cost of all work associated with installing its conduit and cable plant to each site’s main equipment room.

SERVICE LEVEL AGREEMENT

The District considers both the quality and availability to be critical factors influencing the selection of a Service Provider to provide the network service described in this RFP. The District relies heavily upon technology the daily instructional and operational support of its education community. Modern curriculum is designed and implemented around the use and availability of technology in the classroom and schools. Network outage can result in the irreplaceable loss of critical planned instruction time. The District requires the selected Service Provider to provide and maintain the referenced data services on a 24 hour a day, seven day a week basis, including weekends and holidays. Scheduled maintenance is defined as those times that the Service Provider needs to make modifications to the network to ensure delivery of services prior to any service problems. Service Provider will be required to schedule and coordinate maintenance windows so as not to affect normal District operations. Expected uptime for each of the data service types will be equal to or greater than 99.9% on a 24x7 basis average over each seven-day period. Uptime is defined
as full usage of the service and at full capacity as stated herein, with the exception of scheduled maintenance. Uptime does not include the operation of the network on a diminished service level on any or all links due to errors, packet loss or any other factor causing the network to operate in a substandard manner. Any network condition other than uptime is considered a Network Failure. Service Provider response time is defined as the time the Service Provider’s qualified technician reports to the appropriate site of the District or location at the outside plant infrastructure, if either of the following events occurs:1) An authorized representative of the District contact the Service Provider’s technical services organization to report a problem; or2) The Service Provider, through its monitoring functions, becomes aware of a network failure or potential network failure.

Service Levels- The District’s business hours are defined as 7:00 a.m. through 5:00 p.m. Monday through Friday, excluding Federal and California State holidays.

Service Priorities:

Priority 1 – Any network failure of this priority has a critical impact to District operations. Service Provider response time will be no more than two (2) hours and repairs complete within four (4) hours after the initial response. Where network performance is impaired but remaining available, Service Provider response time will be no more than four (4) hours and repairs complete within twenty-four (24) hours after the initial response.

Priority 2 – Any network failure of this priority has an important impact upon District operations. Service Provider response time will be no more than four (4) hours and repairs complete within twenty-four (24) hours after the initial response.

Service Provider response time for any events logged outside of normal business hours will be no more than (2) hours on the next business day. When the Service Provider receives notification of a problem by either of the sources as described in RFP, the Service Provider will log the issue including the date and time the issue was first noted, the time the technician was dispatched, time on site, and the time the service is restored to full operation. Service Provider will supply these logs to District upon resolution of each network failure. The Service Provider will be required, at all times, to stock spares of any and all equipment that may be required for replacement in the event of a network outage. The spares will be locally available and deliverable to any site within two (2) hours from the time requested by the technician determining the cause of failure.

Service Provider will guarantee network performance metrics including:

- Packet loss less than 0.1% (<0.1%)
- End-to-end network latency (delay) no more than 0.2 ms
- Jitter less than 0.1% (<0.1%)
Service Provider will identify a technical contact assigned to the District, that will be accessible during normal business hours and a secondary contact for emergency situations and out of hours events. Service Provider will conduct scheduled repairs and upgrades during off hour periods not affecting the District’s operation or use of technology in the classrooms. All scheduled repairs will be subject to notification of the District’s representative in advance. Service Provider will coordinate all repairs involving access to district faculties in advance with the District’s contact and facilities manager. In the event the Service Provider is unable to respond and /or make corrections to the operation of the contracted goods and services to the substantial satisfaction of the District, the Service Provider will immediately make available a supervisor with the authority to obtain the resources required to make such repairs as may be necessary. If the District does not receive a satisfactory resolution of any network system failure with 48 hours the District may exercise its right to penalize and withhold amounts equal to two percent (2%) of the total monthly district-wide service fee for all locations on an hourly basis that network uptime is not restored between the Administration Building and any other location within service priority requirements. If District does not receive a satisfactory resolution of any network service failure within five (5) business days, the District may exercise its right to declare that the Service Provider is in breach of this SLA. In the event that District declares the Service Provider in breach of the SLA agreement, the District will notify the Service Provider by US Mail or the breach and advise the Service Provider that it has ten (10) business days to resolve the breach. If the Service Provider fails to resolve the breach within ten (10) business days, the District, at its option, may declare the Service Provider in default in whole or in part of the entire SLA agreement and seek whatever legal relief may be available. Termination of service by the Service Provider, for any reason, will require no less than six (6) months notification to enable the District to make other service arrangements. Both parties agree that substantial effort will be required on the District’s behalf to seek out, negotiate and install a suitable replacement service in the event of termination of service by the Service Provider. Further, it is agreed by the Service Provider that this termination notice does not in any way change, alter or subjugate any and all remedies that may be legally available to the District.

VII. INSTALLATION/PROJECT MANAGEMENT
The Service Provider shall conduct project meetings at a District location. Service Provider shall include costs for any and all expenses associated with these meetings (e.g. travel, lodging) in the cost of the proposal. The Service Provider shall conduct project meetings on an as needed basis. The frequency of these meetings will be monthly at a minimum for the duration of the project, and weekly at a minimum during weeks that include Service Provider work on District sites. The attendance will include, at a minimum, the District’s IT Manager, or designee, and the Service Provider IT Manager. The District, through its IT Manager, may request the attendance of any and all members of the proposed system Service Provider staff assigned to the implementation project. The Service Provider shall schedule project meetings in advance and will distribute an agenda mutually agreed upon by District IT Manager and the Service Provider IT Manager. The Service Provider IT
Manager shall be responsible for maintaining all records of any and all official project meetings and shall include applicable information in the monthly progress reports.

Project Monthly Status Reports Requirements – Each month, for the life of the project, the Service Provider IT Manager shall submit a progress report such that it is received by the District IT Manager by the tenth (10th) of each month. These progress reports will be used to document a summary of all activities during the course of the project.

Project Correspondence Requirements – All correspondence, including e-mail and facsimile transmission, from the Service Provider to District shall be logged, dated and numbered in sequence.

VIII. GENERAL REQUIREMENTS

Service Provider shall remove all excess material and debris and return to District site to its original state of cleanliness. The Service Provider shall maintain a work area free of debris and dispose trash on a daily basis.

Service Provider will ensure that all doors on District property are locked upon exit after normal business hours. Doors shall not be propped open at any time. District may require Service Provider personnel to wear distinctive uniforms and/or identification cards while on District property.

WITNESSETH that the District and the Proposer for the consideration stated herein agree as
follows:

ARTICLE 1 - SCOPE OF WORK: The Proposer shall furnish all labor, materials, equipment,
tools, and utility and transportation services, and shall coordinate and sequence Proposer’s work
under the direction of the District and to perform and complete all Work required in connection

be excused with respect to any failure to so comply by an act or omission of the Schools and
Libraries Division (“SLD”), Federal Communications Commission (“FCC”) or the E-Rate
program in general.

ARTICLE 2 - TIME OF COMPLETION: Once the Proposer has received a notice to
proceed, the Proposer shall complete all work for the Project by July 1, 2015. This shall be

consideration for the faithful performance of the Contract, subject to any additions or deductions
as provided in the Contract Documents, the sum of
said sum being the total amount stipulated in the RFP Response submitted.

PERFORMANCE BOND

(CALIFORNIA PUBLIC WORK)

KNOW ALL MEN BY THESE PRESENTS:

THAT WHEREAS, the PALOS VERDES PENINSULA UNIFIED SCHOOL DISTRICT (sometimes referred to hereinafter as “Obligee”) has awarded to ________________ (hereinafter designated as the “Principal” or “Proposer”), an agreement for the work described as follows: ________________ (hereinafter referred to as the “Public Work”); and

WHEREAS, the work to be performed by the Proposer is more particularly set forth in that certain contract for said Public Work dated _________________________________, (hereinafter referred to as the “Contract”), which Contract is incorporated herein by this reference; and

WHEREAS, the Proposer is required by said Contract to perform the terms thereof and to provide a bond both for the performance and guaranty thereof.

NOW, THEREFORE, we, ___________________ ___________________, the undersigned Proposer, as Principal, and ___________________________ _____, a corporation organized and existing under the laws of the State of ________________, and duly authorized to transact business under the laws of the State of California, as Surety, are held and firmly bound unto the PALOS VERDES PENINSULA UNIFIED SCHOOL DISTRICT in the sum of ________________________ _____________ Dollars ($_______________), said sum being not less than one hundred percent (100%) of the total amount payable by said Obligee under the terms of said Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, if the bounded Proposer, his or her heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions, and agreements in said Contract and any alteration thereof made as therein provided, on his or her part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill guarantees of all materials and workmanship; and indemnify, defend and save harmless the Obligee, its officers and agents, as stipulated in said Contract, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

The Surety, for value received, hereby stipulates and agrees that it shall not be exonerated or released from the obligation of this bond (either by total exoneration or pro tanto) by any change, extension of time, alteration in or addition to the terms of the contract or to the work to be performed there under or the specifications accompanying the same, nor by any change or modification to any terms of payment or extension of time for any payment pertaining or relating to any scheme of work of improvement under the contract. Surety also stipulates and agrees that it shall not be exonerated or released from the obligation of this bond (either by total exoneration or pro tanto) by any overpayment or underpayment by the Obligee that is based upon estimates approved by the District. The Surety stipulates and agrees that none of the aforementioned changes, modifications, alterations, additions, extension of time or actions shall in any way affect its obligation on this bond, and it does hereby waive notice of any such changes, modifications, alterations, additions or extension of time to the terms of the contract, or to the work, or the specifications as well notice of any other actions that result in the foregoing.
Whenever Principal shall be, and is declared by the Obligee to be, in default under the Contract, the Surety shall promptly either remedy the default, or shall promptly take over and complete the Contract through its agents or independent contractors, subject to acceptance and approval of such agents or independent contractors by Obligee as hereinafter set forth, in accordance with its terms and conditions and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees and the payment of liquidated damages; or, at Obligee’s sole discretion and election, Surety shall obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon determination by Obligee of the lowest responsible bidder, arrange for a contract between such bidder and the Obligee and make available as Work progresses (even though there should be a default or succession of defaults under the contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the “balance of the Contract price” (as hereinafter defined), and to pay and perform all obligations of Principal under the Contract, including, without limitation, all obligations with respect to warranties, guarantees and the payment of liquidated damages. The term “balance of the Contract price,” as used in this paragraph, shall mean the total amount payable to Principal by the Obligee under the Contract and any modifications thereto, less the amount previously paid by the Obligee to the Principal, less any withholdings by the Obligee allowed under the Contract. Obligee shall not be required or obligated to accept a tender of a completion contractor from the Surety.

Surety expressly agrees that the Obligee may reject any agent or contractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Principal. Unless otherwise agreed by Obligee, in its sole discretion, Surety shall not utilize Principal in completing the Contract nor shall Surety accept a bid from Principal for completion of the work in the event of default by the Principal.

No final settlement between the Obligee and the Proposer shall abridge the right of any beneficiary hereunder, whose claim may be unsatisfied.

Proposer and Surety agree that if the Obligee is required to engage the services of an attorney in connection with enforcement of the bond, Proposer and Surety shall pay Obligee’s reasonable attorneys’ fees incurred, with or without suit, in addition to the above sum.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including reasonable attorneys’ fees to be fixed by the Court.
